

## BECHTIGER EDELSTAHL AG

Location:	On the Lake Constance in the east of Switzerland Wiesenstrasse 8, CH-9327 Tübach
Year founded:	1979
Employees:	18
Industries:	Food and beverages industry Pharmaceutical industry Chemicals industry
Offer:	Tank construction Pipeline construction Process engineering
Materials:	Stainless steel 304, 316L, 316Ti, duplex and alloy
Certifications:	Pressure vessels according to 2014/68/EU und ASME Welding processes according to EN ISO 15614-1 Welding certificates according to ISO 9606-1 GMP, 1935/2004 and FDA standards

## Projects

Pressure tanks: Reactor up to 60 bar  
Material 8 to 40 mm with double jacket

Process tanks: Solid fat melting stations for the food industry  
Rectangular design with heating system and agitator

## Projects

Tank installation: 6x 3,000 litre tank installation for chocolate  
Cylindrical design with double jacket, insulation and agitator

Transport tanks: Process tanks for ultra-hygienic media  
Cylindrical design with refrigeration and beaker-type agitator

## Projects

Piping: Sterile pipework for diaphragm system  
Dimensions DN 20 to DN 80, x-ray-proof

Piping: Reactor housing for sterile filtration  
Dimensions DN 50 to 200, x-ray-proof

### **Customer focus**

Your needs are important to us and we aim to fulfil them every time. We believe in the success of a constructive exchange.

### **Team focus**

We work closely together in our company and we value equality. The team is the company and the company is the team.

### **Quality awareness**

The top priority of everyone who works here is to produce the best possible end product. We are committed to continuous improvement of our products and ourselves.

### **Environmental awareness**

We strive for efficient energy management and a sustainable resources industry. We are personally committed to supporting species protection and the detoxification of our environment through progress and innovation.
